# COTTON MARKETS

### Market Higher on Weather News, But Reacts Sharply. Foreign Situation Mixed.

Wednerday Afternous, April 2
Perfavorable weather reports, past and prospective, constainted the chief influence for higher prices in the fore part of the session today, while more of less anxiety about the progress of peace negotiations in Europe was given as the preiest for the reaction which followed. The session as a whole was rainy favorable for the riends of the staple, although a lot of profit-taking was indulged in the buige and there was not quite the keemness manifested for raw material.

Liverpool cables a bout measured, un to expectations early, but did not show any disposition to lead in the rine, so they had buildite effect on the course of prices on this saide. Finals in the foreign cester were quiet and 8 to 24 points to the good, which was hardly holding the early strength. Spots were marked up 20 points, good middling to 18.22d, with ales 8.00e bales, including 2,70e American Nothing was received. One of the items of news early 10 encourage builds feeling was an announcement that the French government, through its coltan commission, would allow the purchase of 400,000 bales of cotton up to tiel, i although shipping ream would not be ready until June 1. Another influence was expectation of the first weekly summary of weather and crip conditions in the beit.

First prices were steady and moderately higher, new July opening at 24.70c, 10 points over the previous close. There was little for sale and support was being given by prominent apper and Wall street interests, although hoving was not aggressive. The summary cannot about as expected, being fullish on the western belt and fairly sattsfartory for east of the river. The official forecast raised for rain and coider, with perhaps mow and freezing overnight for the suff, so that the clances of considerable rain within like next thay or so were good.

July sold up 10 24.80c, while October was even stongar, but profit-taking and some permane that was based on some rather discouraging to income as to the poace situation in Current Business continued

In some cesters hardly so keen as it has been. New Orleans soid 1.774 bases at no disange in quotations, although private advices early, said the market would likely be higher.

New contracts closed 30 to 80 points off, old 14 to 12 points off, with tone barely steady.

New Orleans new closed 32 to 32 points off, old 24 to 38 lower, tone steady.

Liverpool should come 22 to 25 points lower.

In the local market inquiry was still fairly good, but some people seemed to think the edge off the demand for the moment, especially, among exporters. Sales reported were 3.200 bales and quotations were unchanged, midding at 26.50c.
